

Emergency Response Kits will be placed in all academic classroom and lab spaces across campus. These kits contain the items in the list below and are for emergency use only such as an extended **LOCKDOWN** or **SHELTER** situation.

The SUU Emergency Management Team has done their best to place kits in visible but “out-of-the-way” locations. If SUU employees would like to request that a kit be moved, report a missing kit, or have other questions regarding the Emergency Response Kits, please [contact](#) the Emergency Management Team: 435-865-8141.

Kits will be inspected regularly and sealed with tamper evident tape to ensure that needed supplies are available in an emergency.
