

POLICY #6.33

SUBJECT: Academic Integrity

---

## I. PURPOSE

The purpose of this Policy is to create a campus-wide policy on academic integrity for students and faculty to use if a student is found to be cheating while working towards academic credit.

## IV. POLICY

### A. Introduction

Southern Utah University's goal is to foster an intellectual atmosphere that produces educated and literate people. This can best be achieved in a community committed to honor, respect, trust, and moral courage. These values define academic integrity which is expected of all SUU community members. Cheating and plagiarism are at odds with this goal and therefore will not be tolerated in any form. All work submitted by a student must represent that student's own ideas and effort; when the work does not represent the student's own work it must be properly cited, if it is not the student has engaged in academic dishonesty. Cheating, forgery, plagiarism or the unauthorized use of work belonging to another, except under federal exemptions such as Fair Use, are all considered academic dishonesty.

### B. Types of Academic Dishonesty

A breakdown of behaviors that constitute academic dishonesty is presented below. The definitions and clarifications are meant to provide additional information and examples of these behaviors. They are not intended to be all-inclusive. Questions regarding this policy or requests for additional clarification can be directed to individual faculty members or the Office of the Vice President for Student Affairs.

FORMER NOT USE

- a. The University defines cheating as using or attempting to use materials, information, notes, study aids, fellow students, or other assistance which have not been authorized by the instructor.
- b. The University defines plagiarism as intentionally or carelessly presenting the work of another as one's own. It includes submitting an assignment purporting to be the student's original work which has wholly or in part been created by another person, or cutting and pasting of source material. It also includes the presentation of the work, ideas, representations, or words of another person without customary and proper acknowledgment of sources. It is the responsibility of the student to consult with their instructors for clarification in any situation in which the need for documentation arises.

limited to allowing other students to copy their work, paying for resources or assistance, providing material of any kind that may be misleading to an instructor, and providing information about tests or other assessments.

- . Use of translation devices print, electronic, or otherwise in an academic setting is only permitted when prior authorization from the appropriate faculty member has been obtained.

#### C. Process for Handling Alleged Violation of this Policy

##### . Initial Conference

- a. If an instructor has reason to believe that a student has committed a violation of Academic Integrity, the instructor will contact the student within a reasonable period of time, within five business days to make the student aware of the suspected violation and to request a meeting with the student. The goal of this will be to determine if a violation did occur, if there was intent to deceive and/or if the student admits to the violation. The faculty member may choose to contact the Office of Vice President for Student Affairs to request a judicial officer participate in a preliminary investigation and to have a judicial hold placed on the student's account until the issue is resolved. The judicial hold will prohibit a student from withdrawing from the class during the investigation.

- d. In cases where the faculty member reasonably believes that it is more likely than not that a violation of the University expectations has occurred, they will issue appropriate academic remedies, which may include the following:
  - i. Written notice to the student that they have committed a violation of the academic integrity policy and that further violation may result in more severe action.
  - ii. Reduction to the grade of the corresponding assignment where the violation occurred. This can result in a grade of \_\_\_\_\_ on the assignment.
  - iii. Revision of the work where the violation occurred within a specified period of time to be determined by the instructor.
  - iv. Manual submission of a grade for the course to the Registrar's Office. A

submitted in writing and within five business days of receiving the decision letter to the office of the Vice President for Student Affairs.

- b. If appropriate, the Vice President for Student Affairs will convene a review panel to consider the appeal. The panel will be comprised of five members of the University Committee for Student Discipline UCSD , to include a minimum of three faculty members chosen from those trained to serve on the UCSD. See [Policy](#) for further information on the UCSD and the associated process.
- c. Review panels considering reviews of alleged violations in graduate courses should include at least one member of the graduate faculty.
- d. Any academic remedy issued by the faculty member will be held in abeyance pending the panel's review and decision on the case. Should allegation of misconduct occur at the end of the course, a grade of incomplete will be issued to the student pending a resolution.
- e. A review panel decision regarding what, if any, violation occurred will be determined by a simple majority vote.
- f. If a Hearing Panel finds a student responsible, the academic remedy is prescribed by the faculty member will stand.
- g. Students may seek help while going through the appeal process by contacting the Southern Utah University Student Association Judicial Council or by seeking outside advice.

- . Appeal Procedures

- a. The following steps should be taken to aid in the University's compliance with appropriate due process:
  - i. A date, time, and place of the panel shall be determined with notice given to all parties. Every effort shall be made to schedule this panel within two weeks of the date of the notice of the alleged violation, unless previously agreed upon by all parties.
  - ii. The student respondent will be notified of the allegations they are being accused of in advance, generally in writing.
  - iii. All hearings are closed to the public.
  - iv. In cases involving more than one student, the panel may hear the case as one, but will make independent determinations for each student involved.
  - v. Both the faculty member and the student will be allowed to present relevant information to the panel.

- vi. In situations where the student or the faculty member does not attend the hearing, the proceedings will continue as planned using available information.
- vii. The student may have an advisor present throughout the proceedings. The role of the advisor is limited to advising and as such is limited to conferring with the advisee only.
- viii. Witness statements may be considered and should be submitted three days prior to the scheduled hearing, to be considered by the panel members.
- ix. Questioning witnesses will be limited to panel members only.
- x. In closed session, the panel will deliberate, and determine the facts of the case and determine the propriety of the proposed remedies.
- xi. The student will be notified of the panel's decision within five business days after the date of the hearing.

. Transcript Notifications

- a. Generally, transcript notifications will not be expunged. Students seeking such action must submit their request in writing to the Chief Judicial Officer. Consideration will only be given four or more years after the determination of responsibility. If a notation is removed, the judicial record will remain intact unless expungement of this record is required by court order.

D. Multiple Violations of the Academic Integrity Policy

- . As outlined in Section IV.C. .b. of this Policy, written notifications of decisions rendered following an initial conference are to be provided to the Vice President for Student Affairs. Upon receipt of such notification, the violation will be recorded in the university's judicial database. Maintaining a centralized database of student violations allows for the effective tracking of student infractions.
- . When a student is found to have violated academic expectations more than once, the University's judicial process will be used to determine whether the student should be permitted to continue at the University. See [Policy](#) .
- . The focus of such a hearing will be on continued enrollment; such hearings will not be used to re-hear the facts of any case that has already been decided.
- . While decisions about the specific incidents that lead to the judicial hearing are based solely on related information, judicial history is not introduced; judicial history can be considered when the student's continued enrollment is being evaluated.

E. Violations Discussed Post-Enrollment

- . When an academic integrity violation is discovered after the conferring of a degree, the University will consult with Legal Counsel to determine the best course of action which may include a repeal of the earned degree.
- . When academic integrity violation is discovered after a grade has been recorded, the faculty/Department Chair should report the incident to the College/School Dean. The Dean will review the allegations and meet with the course faculty member and student if possible to discuss the incident. Among the remedies available to the Dean in this instance will be voiding the grade issued and retroactively issuing a failing grade for the course.
